Hey Sumath,
I wanted to answer your question here:

@Dorian , if we have experience and want to be included as an expert, do we participate in the challenge or not allowed? I'm confused

Answer: When you have the right experience and skills you can be accepted as an expert. We determine your experience and skills based on your platform profile. In the case of the Data Centers Challenge you have been selected to join as an expert based on your research background in Computer engineering 😊
